

# NGUYEN THANH DAT

FRONTEND DEVELOPER

thanhdatnguyen.vercel.app | Cell: (+84) 342 454 839 | Email: nguyenthanhdat1412joitaro@gmail.com

## SUMMARY

Thanh Dat is a passionate developer who consistently expands his skill set and is eager to contribute to any team effort. He is committed to learning the details of each problem and market he approaches, ensuring practical solutions. With a focus on high-quality, user-centered products, Dat strives to create meaningful experiences and share valuable knowledge with others. His ultimate goal is to contribute to impactful projects that meet both strategic and executional needs.

## EDUCATION

### UNIVERSITY OF TRANSPORT HO CHI MINH CITY

Ho Chi Minh City, Vietnam

Bachelor of Information Technology

October, 2024

Degree: Very good - GPA 3.55/4.0

Language: English TOEIC 850/990

## SKILLS

Languages & Core Technologies: HTML, CSS, JavaScript (ES6+), TypeScript, Node.js, PHP, Python, RESTful APIs

Frameworks & Libraries: React.js, Next.js, Three.js, Redux, React Native, TailwindCSS, SASS/SCSS

Tools & Databases: Git, GitHub, MySQL, MongoDB, Firebase

## WORK EXPERIENCE

### Web Developer

Freelance on Upwork

November, 2022 - Present

- Designed and developed 15+ responsive websites using modern web technologies, ensuring cross-browser compatibility and mobile responsiveness to meet diverse client needs.
- Partnered with clients in the US and Vietnam to design tailored web solutions, achieving a 20% improvement in client satisfaction through effective communication and meticulous project execution.
- Enhanced problem-solving skills by troubleshooting and resolving 95%+ of technical issues within strict deadlines, leading to 100% project delivery on time.

## PROJECT

### TDNote

Individual Project

Preview: [Overall of TDNote](#)

Link: [tdnote.vercel.app](#)

April, 2024 - May, 2024

- Designed and implemented a user-centric note-taking interface inspired by Notion, enhancing usability and engagement for 200+ active users of that time.
- Integrated AI-powered assistance for querying and interacting with notes efficiently.
- Developed and deployed the application using modern web development technologies (Next.js, TypeScript, TailwindCSS).
- Conducted user research and gathered feedback from over 200 users across Vietnam and New York, optimizing features based on insights.

### Dragon Soulbound

#### Community

Unique Network

Link: [dragonft.org](#)

October, 2024 - December, 2024

- Co-founded DragonFT, building a community of users centered around showcasing achievements.
- Successfully secured \$5,000 in funding to support the project.
- Designed and developed the entire website from scratch, focusing on UX/UI, responsive design, and graphic elements.
- Implemented Web3 functionality using smart contracts to enable users to collect and display their achievements securely.
- Led frontend and backend development, ensuring seamless integration of blockchain technologies with user-friendly interfaces.

## LEADERSHIP & ACTIVITIES

### ITCLUB - GDSC

Leader of GDSC Tech Team

March, 2023 - February, 2024

- Established a coding community of 300+ college students, organizing 10+ workshops and hackathons that resulted in 50+ completed projects and increased knowledge sharing through structured mentorship programs.
